Markets Served

WET provides services for every stage of even the largest and most complex projects, and our focus is on understanding and meeting the needs of our clients across a variety of industries. We develop this focus by researching and understanding industry trends, in addition to participating in professional and industry-related organizations. Our team has expertise in both environmental and civil engineering disciplines, as well as additional planning and technical services. Our value is derived from having a comprehensive understanding of each industry we work in and knowing our clients' specific needs in nearly any market.

- Industrial/Commercial
- Energy
- Petroleum/Oil and Gas
- Mining
- Government/Municipal
- Superfund
- Agriculture
